To whom it may concern:

Professional Recommendation for Destiny Shaw

I am pleased to recommend Destiny as a highly capable professional clinician. During her employment with Family , a division of Youth I have served as her primary clinical site supervisor since August 2025. Throughout this time, Destiny has consistently proven herself to be a dedicated and skilled member of our team.

Clinical Experience and Collaboration

Destiny has actively participated in both group and triadic supervisions under my guidance. She is well respected by her fellow supervisees, reflecting her collaborative spirit and professionalism. In this first year of her training, she has gained broad experience, having worked as a school-based therapist at both the elementary and high school levels. In addition to her work with students, Destiny has provided effective therapeutic support to both couples and individuals, with positive feedback reported by her clients.

Therapeutic Approach and Skills

In her role with students, Destiny demonstrates a remarkable ability to quickly build trusting relationships. This skill enables her to engage and support individuals facing a variety of mental health challenges. Her compassionate approach creates a safe environment where students feel heard and understood. Destiny is adept at addressing concerns such as depression, anxiety, grief, addiction, and suicidal ideation with both sensitivity and professionalism.

Empathy and Professionalism

Destiny is intuitively empathetic and consistently recognizes the positive attributes in every client she works with. She approaches her work with difficult clients with grace and professionalism, maintaining a high standard of care for all.

Future Potential

As her supervisor, I look forward to supporting Destiny's continued training toward licensure. I would not hesitate to hire her as a valuable member of a team of clinicians, given her skills, character, and dedication.

Sincerely,

Marty
